About The Young Hearts Foundation

The Young Hearts Foundation is dedicated to improving the lives of young people affected by long-term illnesses or loss. Through raising awareness and funds for medical research and providing non-medical support to patient families, The Young Hearts Foundation strives to encourage a community of volunteers to reach out to our youth who are in need.

The Young Hearts Foundation is a 501(c)3 charitable organization. Our tax identification number is 26-1269970. In December of 1999, thirteen-year-old Ryan McLaughlin lost his courageous battle with leukemia, leaving behind heartbroken friends and family. Determined to continue fighting for him, Ryan's sisters dedicated themselves to supporting others who were dealing with blood related cancers. In their brother's honor, they established the "Young Hearts" team to participate in and raise funds for The Leukemia & Lymphoma Society's 2000 Light the Night Walk. This small team of elementary, middle, and high school students from Fairfax County, VA raised over \$10,000 that first year.

In the years since, the Young Hearts have instilled a commitment to volunteerism and a dedication to improving the lives of others in over 1,000 young people. They were inspired and empowered to raise over one million dollars toward the mission of The Leukemia & Lymphoma Society: to find a cure for leukemia, lymphoma, Hodgkin's disease and myeloma and to improve the quality of life of patients and their families. In recognition of their outstanding contributions, the Young Hearts were awarded The Leukemia & Lymphoma Society's Chairman's Citation Award in 2008, and the Relentless for a Cure Award in 2010. In 2015, The McLaughlin family was humbled to receive the James L. Eichberg Lifetime Achievement Award at The Leukemia & Lymphoma Society's annual Leukemia Ball.

Quick Facts:

- One in every two men and one in every three women will be diagnosed with cancer at some point during their lifetime.
- Every 3 minutes someone in the US is diagnosed with a blood cancer. Every 9 minutes someone in the US loses their battle.
- Leukemia is the second leading cause of cancer death of children and young adults under the age of 20.
- The five-year survival rate for children under the age of 15 with acute lymphoblastic leukemia has improved from 3% in 1964 to 90.6% today.
- The overall five-year relative survival rate for leukemia (across all types) has more than quadrupled since 1960.
